

# RAGHAV KUMAR

## Full Stack Developer

Bengaluru, India | +91-6200740550 | raghavkashyap4046@gmail.com | [LinkedIn](#) | [GitHub](#)

### Professional Summary

Frontend Engineer with 2+ years of experience building enterprise web applications using React.js, TypeScript, Ag Grid, GraphQL. Skilled in developing reusable UI architectures, optimizing application performance, integrating GraphQL services, and delivering scalable business solutions using modern React ecosystems.

### Technical Skills

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS.

**Frontend:** React.js, Next.js, Redux Toolkit, AG Grid, Context API, Storybook, Material UI.

**Backend & Database:** Node.js, Express.js, MongoDB

**API & Data:** GraphQL, Apollo Client, REST APIs.

**Testing:** Jest, React Testing Library.

**Build & Tools:** Webpack, Git, GitHub, CI/CD, ESLint, Prettier, Jira, Postman, Insomnia, Figma.

**AI Tools & IDEs:** GitHub Copilot, Cursor.

### Work Experience

#### UI Engineer — Tenarai (Infogain)

July 2025 – Present

*Client: HP Inc. — PriceHub, Enterprise Sales Platform | React.js, TypeScript, GraphQL, Apollo Client, Jest | Bengaluru, India*

- Engineered enterprise pricing, authorization, and approval workflows, enabling global sales teams to efficiently manage complex enterprise deals across multiple business regions.
- Built reusable UI components, custom hooks, and shared libraries, reducing duplicate code by approximately 40% and accelerating feature delivery across multiple business workflows.
- Optimized frontend performance using React.memo, useMemo, Apollo Client caching, and lazy loading, reducing page load time by approximately 30% and improving responsiveness across data-intensive enterprise screens.
- Designed enterprise AG Grid solutions supporting 2,000+ product records with advanced filtering, sorting, pagination, inline editing, and bulk operations, improving pricing management efficiency.
- Debugged and fixed **180+ production issue** to improve application stability, quality and coding standards.

#### Junior Full Stack Developer — TEKsystems

May 2024 – July 2025

*Client: HP Inc. — PriceHub, Enterprise Sales Platform | React.js, TypeScript, GraphQL, Ag grid, Jest | Bengaluru, India*

- Developed reusable UI components for enterprise pricing, product management, and approval workflows, improving application consistency and accelerating feature development.
- Migrated legacy business modules to a reusable React-based architecture, improving maintainability and enabling faster feature enhancements across the application.
- Integrated GraphQL queries and Apollo Client caching to streamline data retrieval, reducing redundant API requests by approximately 20% and ensuring seamless data synchronization across enterprise workflows.
- Resolved **120+ production issues**, improving platform reliability, business validations & overall application stability.
- Maintained **80%+ Unit test** coverage using Jest, supported code reviews, and reduced regression defects.

### Education

#### Bachelor of Computer Applications (BCA)

2021 – 2024

Presidency College, Bengaluru | CGPA: 7.5 / 10
